

# **Encoder WDG 24C**

www.wachendorff-automation.com/wdg24c

#### **Wachendorff Automation**

#### ... systems and encoders

- · Complete systems
- Industrial rugged encoders to suit your application
- Standard range and customer versions
- Maximum permissible loads
- 48-hour express production
- Made in Germany
- Worldwide distributor network

**Industrie ROBUST** 

# **Encoder WDG 24C**

- very compact construction for use in harsh conditions
- permissible bearing loads similar to our "big encoders"
- up to IP67 all around
- Hall effect based signal generation

#### **Options**

Order key Low-friction bearings

The encoder WDG 24C is also available as a particularly smoothrunning low-friction encoder. The starting torque is thereby changed to 0.1 Ncm and the

protection class at the shaft input to IP50.

IP67 all around (with connector SK6/SK8 only) Order key

The encoder WDG 24C can be supplied in a full IP67 version. Resistance to salt mist (IEC AAO 60068-2-11) after 672 hours

Max. RPM: 3500 rpm

Permitted Shaft-Loading, axial: 30 N Permitted Shaft-Loading, radial: 45 N

Max. PPR: 1024 ppr

Starting-torque: approx. 1.2 Ncm at ambient temperature

Low temperature Order key

The encoder WDG 24C with the output circuit types M05, N05, M30, N30 is also available **ACA** 

with the extended temperature range -40 °C up to +80 °C (measured at the flange).

Cable length Order key XXX = Decimeter

The encoder WDG 24C can be supplied with more than 2 m cable. The max. permissible cable length is 10 metres with the output circuit M05 and N05.

With output circuit M30 and N30 max. 25 m. The maximum cable length depends on the

supply voltage and the frequency; see www.wachendorff-automation.com/atd

Please extend the standard order code with a three figure number, specifying the cable

length in decimetres. Example: 5 m cable = 050
